

Pine Cone Sorting

Supplies for activities needed:

- Multiple pine cones of different heights and shapes.

Activity Name: Pine Cone Sorting

- School Readiness Outcomes (SRO) goals met:
 - Place objects in sequential order
 - The child uses a conventional or unconventional measuring tool
- Instructions
 1. Lay out the pine cones on a flat surface.
 2. Place the pine cones in order from tallest to shortest.
 3. Have the child measure the pine cones to confirm which is the tallest and shortest (however they would like to measure).
- Extension Activity Ideas
 - Sort pines together that have similar height (all the tall pine cones go into one pile, and the short pine cones in another).
