

Winter Spirit Candy Sled

Supplies Needed for Activity:

- King-sized kit kat bar (or other similar-sized candy bars)
- 2 candy canes
- Pre-wrapped chocolates/candies
- Wrapping paper (or color your own design on blank paper)
- Tape
- Scissors

Instructions:

1. Gather all required materials (included in the list above).
2. Take the kit kat bar and wrap it with the wrapping paper.
 - a. Use the scissors to cut a piece of wrapping paper that is about double the size of the kit kat bar.
 - b. Fold and tape the wrapping paper around the kit kat bar.
3. Once the kit kat bar is fully wrapped, take the candy canes and tape and put two pieces of tape onto each candy cane.
 - a. The tape pieces should be wider than the candy cane.
 - b. The tape pieces should be placed horizontally along the candy cane so that the hook of the candy cane is pointed upwards.
 - c. Space the candy canes apart from one another; they can be closer or farther depending on your personal preferences.
 - d. Secure the candy canes onto the bottom of the wrapped kit kat bar, which should result in a sled-like shape.
4. Once the candy canes are successfully attached, grab the pre-wrapped chocolates/candies and place them on top of the sled.

- a. Put double-stick/a loop of tape on the bottom of each of the candies which you want to place on your sled.
5. After the pre-wrapped candies are secured and the candy canes are taped to the bottom of the wrapped kit kat bar, enjoy your candy sled creation!

You can save it for later and use it as a winter decoration or eat the yummy treats which you used to make it!
