

Supplies for activities needed:

- Boxes
- Aluminum Cans
- Plastic Bottles
- Tape

Activity Name: Recyclable Building Blocks

- School Readiness Outcomes (SRO) goals met:
 - Child makes an object bigger or smaller and comments on the change
- Instructions
 1. Collect your recyclables, you can have as many or as few as you like, of any combination of materials.
 2. Tape and close any boxes that need to be closed, and make sure that cans have been rinsed out.
 3. Build something! I built a house in the video.
 4. Compare the heights of different parts of your building.
 - a. Which building blocks are taller? What about when you stack them?
 - b. Do your blocks keep falling over? Do you try to build the same thing, or change it so that it doesn't fall anymore?
