

# Watermelon Counting Craft

Supplies for activities needed:

- Paper plates (thinner plates make for easier cutting)
- Paint: red and green
- Paint brush
- Black marker
- Scissors

School Readiness Outcomes (SRO) goals met:

- Place objects in sequential order

Instructions:

1. Paint the plates, red in the middle and green around the edge
2. Allow to dry before moving on
3. Cut each plate into four equal parts
4. Using the black marker write one number on each piece
5. Then go back and draw the number of seeds on each slice that correspond to the number on that slice
6. Place the slices in order from lowest to highest
7. (Optional) Can mix them up and start over

Extension Activity Ideas:

- Working on numbers and counting
- Working on writing
