

Water Cycle Part 2

Supplies for activities needed:

- The Water Cycle video
- Writing utensils
- Your thinking caps!

Activity Name:

- School Readiness Outcomes (SRO) goals met:
 - Initiating interactions with other children
 - Solving problems with other children
- Instructions
 1. After watching the video, create your own trivia questions about the water cycle.
 2. Have fun and quiz other people on the questions you created!
- Extension Activity Ideas
 - Use paper and crayons to make your own cutouts of the water cycle (like those seen in the video). Use these to reference while quizzing others!
