

Construction Paper Picture Frame

Supplies for activities needed:

- A picture of some kind, photograph, markers, colored pencils, crayons, etc.
- Scissors
- Construction Paper
- Glue stick or Liquid Glue

Activity Name: Construction Paper Picture Frame

- Instructions
 1. Choose a color of construction paper for the “frame” of the picture.
 2. Cut out the middle of the sheet of construction paper.
 - a. Do this either by folding the paper in half, and the cutting out a “C” shape, or:
 - b. Cut through the edge of the paper and around the inside of the sheet, making a rectangle. This method does not leave the “frame” fully connected
 3. Glue one side of the frame
 4. Join the frame and the picture together.
 - a. One way to do this is by flipping the picture face-side down, and lowering it onto the frame.
 - b. The other is to leave the picture face-side up, and lower the glue-side of the frame down onto the picture.
 5. Trim off any edges of the drawing paper that show outside the frame.
 6. Add a name, age, and year to the picture to make sure you remember when you completed your masterpiece.
 7. If desired, decorate the picture frame after the glue has dried.
 - a. Some ideas for that are: glitter, more drawings, or stickers
