

How to Make a Rudolph Ornament

Supplies for activities needed:

- Clear Ornament (Recommend Plastic)
- 2 Googly Eyes
- 1 Red bell or button
- 2 Pipe Cleaners (Color of your choice for the antlers)
- Paint (Optional)
- Hot Glue Gun
- Pen
- Scissors

Activity Name:

- School Readiness Outcomes (SRO) goals met:
 - Identifying letters in the alphabet
 - Showing interest in simple use of material/activities
 - Requiring adults' help in solving problems with children
- Instructions
 1. First you are going to gather all of your materials
 2. Then if you want to paint the inside of your ornament you are going to pour some paint inside of the ornament
 3. Then you are going to spread the paint by rotating the ornament and lightly shaking it
 4. Once the paint is spread you then are going to take a pipe cleaner and fold it in half
 5. Take half of the pipe cleaner and wrap it around your pen
 6. Repeat step 5 to the other half of the pipe cleaner to make the antlers
 7. Then you are going to glue the antlers to the back of the ornaments cap (I recommend an adult to help you with the hot glue gun)
 8. Then you are going to glue on both of your googly eyes

9. After the eyes are glued on you are then going to glue on Rudolph's nose
10. When you are complete you can use your other pipe cleaner and twist it around the cap, so you are able to hang your ornament
11. When you are complete, let your Rudolph ornament dry.
