  - Relates to adults
  -
- Instructions:

## Dinosaur Rhyming

Directions: This is a simple activity meant to be done between parent and child after your child watches the dinosaur rhyming video. Please read the following poem to your child, making sure to stop reading when the poem reaches a blank. Read out all the answers to the blanks and ask your child for the correct answer, remember to read the previous line over again if your child is having difficulties!

Have you heard of the dinosaurs?

You know, the giant lizards that used to say \_\_\_\_ (roar, grrrr, more)

There was Stegosaurus, with a big spiky tail.

And Ankylosaurus, with armor like \_\_\_\_ (chain mail, rocks, big hail)

The Pterodactyl, that soared like an Eagle.

And Cosmognathus, who was as small as a \_\_\_\_ (beagle, seagull, mouse)

Who could forget the mighty T-Rex? The scariest of them all!

And finally, Argentiosaurus, who was definitely not \_\_\_\_ (small, tall, large)
